Phone me and I'll hang up

Sick and tired of being bubble gum chewed up

Dark lane, bleak house shrinking rose, You're over and out

Tie a cherry bootstring, put your candy teeth in

Choking on a sweetheart, hang up, hang up, hang up

Go on girls - solo,

Go on girls - take a chance,

Go on girls - trust it,

Go on girls - the truth is ...

Cut your hair wear a chip on your shoulder

Get ahead, get laid, get it over

Cheap show, back seat martyr's pose, you're over and out

I'm checking out of my senses, buying best defences

Putting on the trousers, hang up, hang up, hang up

Go on girls - solo,

Go on girls - take a chance,

Go on girls - trust it,

Go on girls - the truth is ...

So so ... Single ... So low ... The truth is ...

You want the day to fit to a soundtrack

Get a story get a life and get back

You've got nothing to shout about

You're over and out

I'm checking out of my senses, Buying best defences

Fired up on free-will, hang up, hang up, hang up

Go on girls - solo,

Go on girls - take a chance,

Go on girls - trust it,

Go on girls - the truth is ...

So so ... Single ... So low ... The truth is ...

So so ... Single ... So low ... The truth is
