"A Chang"

Sadness comes around me

I feel I have to know

Should I leave right now

Or tell my love

Maybe I am afraid

Maybe I am afraid

I feel away with love

This might be a long time

After all

If baby you want to know

You give me less than I want

But more than you can do

Is less than I can have

I know

All the streets are crowded

And you are on my mind

You will return to me

And that is all I want
