Let's drive away, my day's wide open
Get in my car, I'll let you ride shotgun
I love the way you look at me sideways
If you don't mind, I'll stare at you straight on

Come on let's go
will you bring your falling angel?
You know I'll bring mine
I want to know precisely is it just a matter of time?
till you realize
I would drive you anyplace
And I would go anywhere if you'd promise to be there

What can I learn from your graceful tantrums?
I'll want to use more than a witness
Sit back in time, follow the northern line
I got it wrong, you always get it right

Come on let's go
will you bring your falling angel?
You know I'll bring mine
I want to know precisely is it just a matter of time?
till you realize
I would drive you anyplace
(Let's go)
And I would go anywhere if you'd promise to be there

Don't know why it's gotta be
you're to lost to follow me
And you're to shy to want to see that you're the
soundtrack full of scenery
the noise that filled my head at night
Could you ever dream of me in that light?

Come on let's go
will you bring your falling angel?
you know I'll bring mine
i want to know precisely is it just a matter of time?
until you realize
I would drive you anyplace
(Let's go)

and i would go anywhere if you'd promise to be there

I don't know why it's gotta be
you're to lost to follow me
And you're to shy to want to see that you're the
soundtrack full of scenery
the noise that filled my head at night
Could you ever dream of me in that light?
