I know a place that I'm going to burn down

Let it go

I don't think I really want to play again

Take me to the place

I used to love so much

I don't think I really to say it again

So alive

so in love

so live

Stroke me anywhere

And I'll be cold

Love comes down

And pushes to the middle of life

My love

Say it again

And I will follow you anywhere

My pretty sister
