I fell off the the stairs again  
Wonder if it'll ever end  
The pain you cause me is heartbreak  
And I'm left fighting in thee end.

So  
Try me and you'll see  
That this time you can't push me  
Life is to short to waste  
And i will not let it slip away from me  
Tonight just wait and see  
When your gone then ill be so happy  
I need to leave this place. i need to leave this place...

When im with the guys just trying to have a good time  
You barge in screaming like ive done a crime  
Break my windows and my walls  
You think you've won but i'm coming down the hall now  
Coming down the hall now  
Coming down the hall now

So  
Try me and you'll see  
That this time you can't push me  
Life is to short to waste  
And i will not let it slip away from me  
Tonight just wait and see  
When your gone then ill be so happy  
I need to leave this place. i need to leave this place...

Its burns me up inside how time has not subside

So  
I need to leave this place. i need to leave this place  
I need to leave this place. i need to leave this place...
