I'm sick of paying taxes
It gets worse every day
I'm soon gonna take the taxes
And give 'em all my pay
Might as well give it all to them
They'll get it anyway
I'm sick of paying taxes
That's what I say
There's Federal tax, Provincial Tax
And municipal, too
And everytime you turn around
Another tax is due
There's income tax, entertainment tax
A tax on what you buy
They'll tax you when you're living
They'll tax you when you die
Now if you are a drinkin' man
I tell you, it's no joke
They'll tax the liquor that you drink
And the cigarettes you smoke
An excise tax, a hidden tax

Taxes in plain view

If they could tax the air you breath

they would tax that too

There's Federal tax, Provincial Tax

And municipal, too

And everytime you turn around

Another tax is due

There's income tax, entertainment tax

A tax on what you buy

They'll tax you when you're living

They'll tax you when you die

There's water tax, school tax

A tax on your property

An import tax, an export tax

And now, the GSD

A Federal Tax, a luxury tax

A tax on gasoline

They'll tax you any way the can

Man . . those guys are mean !!
