It's the perfect night  
To go out and do it right  
One look into your eyes  
Sets the emotion  
Don't need psychology  
With this biology  
officialty is ever flowing  
All I really wanna do is feel your love  
Get into the rhythm of the two of us  
Wanna feel your love can't get enough  
together

Chorus:

I feel the chemistry  
Between you and me  
There's electricity  
when you're touching me  
I feel the chemistry  
Pulled by a gravity  
I want you touching me  
I feel you touching me

The way my body acts  
When your body moves like that  
It's science in control  
And we're defenceless  
It's in the D.N.A.  
that we feel this way  
So let the music play  
"Release the tension"

All I really wanna do is feel love  
Get into the rhythm of the two of us  
wanna feel your love can't get enough  
together

Chorus:  
I feel the chemistry  
Between you and me  
There's electricity  
when you're touching me  
I feel the chemistry  
Pulled by a gravity  
I want you touching me  
I feel you touchÃ¬ng me
