You've always been close to me
Even when we disagreed
I've got that weakness for you
Doesn't matter what you do

I wanted to stay away
I tried to stay away
I wanted to stay away

But I can't stay away from you
I don't know if I want to

Even when I'm on my knees
You're still hard to please
And if I left you behind
Only be a matter of time

I tried but I can't forget you
You carved your name on me
I tried since the day I met you
To keep my sanity...

And I don't know what to do...
I can't... stay away from you...
I can't... stay away from you...
I can't... stay away from you...
