believe in nothing
no one no where
forgotten regret
heartless broken
lifeless senseless
the beauty in sadness
the horror of horror
the brightest in madness

fall as you fade x4

believe in nothing
no one no where
forgotten regret
heartless broken
so lifeless senseless
heart race broken
the beauty in sadness
the horror in madness

fall as you fade x4

belive in nothing
no one no where
forgotten regret
heartless broken
nothing to no where
no one to nothing
the love now regretted
so lifeless suspended
the beauty in sadness
the horror in madness
the horror in madness
the beauty in sadness
I long to say
fall as you fade
