rip apart your face with a life force of disgrace now  
here the lie for death 4 million people dead now the  
next stop will be, will be, the city in its devastation,  
some body will pay, the past realization, see all our  
lies, the last annexation, shit on my eyes, now a life for  
chaos, feel alive for chaos, to feel alive for chaos, or  
be alive for chaos, to feel, the light, some phase, red  
burn, un owe, bring it out, oh no, satan, you know,  
bring it out, un known, say don't, last night, tomorrow  
shall be the night, so play your life, something out side  
to realize, tall cut up vision, people dead, life for free  
there is nothing said, feel the life force on my arm, feel  
the life force on my arms. rip apart the nation with a  
plague of devastation burn down the cities with life  
undead, the black star rises it shows us hate, the future  
is here for us to seperate now. life is death, life is  
death, life is death, life is death, life is death, life  
death, call you all, kiss your eyes, feeling up, you kill  
my eyes, don't feel it up, don't chew my eyes, don't  
feel it up, so kill my eyes, don't feel it up, just kill my  
eyes, don't feel it up, don't kill my eyes, gotta fear, got  
a thing for the gore. a last generation on a lost mind  
state, killing everything in the name of the state, rip  
apart the lives with a fucking knife, kill em all fucking  
die end of the line, the brain disease is at your bed, the  
life of you is all most dead, to kill all the law, the future  
dream, to kill all the law all for the screen, to fear my  
eyes of the million people dead for the sight for the  
state of the governments light for the shit for another  
life, the public crawls get underground same sound  
follow you around, cant say, calling me for another  
day, another day, another way, another day, another  
say a fallen son has got gun everything is fucking  
dead. it helped me realize so much is fucking dead so  
much is fucking dead, life is undead, cause in time  
could be dead. future insane we'll feed apart your  
brain 4 billion people dead, the next cunt on the way  
will be the end of time, now face the fear, now face the  
fear, nothing left, nothing left, nothing left, nothing  
left, nothing left. the future, a big hole, a life force in  
death row, domitro: you corrode the water in dream  
wars.
