crawl in a world  
with a vision thing  
they drool on the floor  
in the translucent reality  
hallucinations are tying me to the floor  
and making me bleed deep down inside  
into the vision  
went through the wall a sight  
into a window pane  
of pain, but you're lifeless and you're poor  
and your life is on fire  
it bleeds the sign of life  
is here for you  
for you  
grinding sound  
of bone hitting pavement  
mucous drips  
out of this long nailed hand  
to a cross where it bleeds  
push you down into the sound  
no boring vision, helpless sign  
no bloody cross, it's genocide  
no bloody vision in my mind  
'cause it's over here, it's genocide  
see it fade, through looking glass  
into the wall where you were last  
a vision of an image  
image, dragged into the time  
scanning sub-space frequencies  
scanning sub-space frequencies  
now we're all in this ship of death  
running down the universe  
where the cross is into you  
right into you, right through you  
crawl back into your hole  
where you came in, down  
now you see  
shakespeare was a dream  
in you once, and all i get  
is civil war, with bloody hands  
with nothing but a war and brainless  
kill, kill, kill

now christ, christ, christ  
velvet, acid, hallucination christ  
velvet, acid elvis tears apart  
oh, oh, christ, christ, christ  
kneel to the field, then kneel at the altar  
and hold up the head which you cut fresh  
from the klan of nothing  
you hold this cum  
hold this gun  
it's in your cut off arms  
velvet acid christ  
christ, push into lips  
feel the vomit, sick shit  
your lost law  
and maggots festering  
bacterial infection  
viral conjection
