no different, no difference, your no different, no
different, no different, no difference. rain, rain, for 27
days, rain, rain for 27 days. don't you see the broken
glass, i travel over the wall, to see the light, the light,
rain for 27 days on my broken soul, today, i'll never
grow, your eyes, your head, see the broken glass, your
eyes your soul no innocence, i feel 27 days, don't you
lie, we see the sun but it doesn't matter though,
innocence gone, all fucking lies, it rains, it rains for 27
days, it rains, it rains for 27 days, never go away,
never walk away, i feel, i'll assassinate your broken
soul, lies and words, broken, feel this pain, never say
good-bye, never say good-bye, is the difference, abhor
the difference, the sorry face of religion, you've got no
where to go, spinning round your falling down, your
words don't hold your soul, see your brain, my soul is
down, on your lie, you you lie lie, it's a lie, no fucking
difference, ohhhhhhhh, ohhhhhhhh!
