sadder still, sadder still, sadder still
you watch it die
betrayal of the heart
is the hardest part of letting go
now you see the truth of me
so what's the point? it's so cold
time will take your soul
time will take your dream
time will take your life away
away
fading lights
shattered dreams
of lost love
i remember the past
betrayal of the heart
is the hardest thing to let go
so now i don't dream
no, i don't feel
anything at all, anymore
time will take your soul
