listen to reason  
in the back room where i started  
from the beginning to the end  
what do you want? do you pretend?  
right through the fucking mirror  
right through the fucking wall  
right through the fucking mirror  
right through the fucking wall  
look into my eyes, i hope you die  
crushed into a million pieces  
chop you up, and put you in the garbage disposal  
and rip your head off  
and crush your neck with a fucking ten-inch knife  
punch a fucking bullet right through your brain  
right into the part of insanity, insanity  
right down in the middle of your forehead  
with a razor blade on your cheek  
to make you pretty, make you bleed  
right through the beginning, through the mirror  
riding it backwards in the back room  
don't you understand?  
i'll chop you up into a million pieces  
i hope you fucking die  
i hope you fucking die  
well i hope you fucking die  
well i hope you fucking die  
right through passivist, passivist  
right through the passivist  
through history into your brain, we walk backwards  
understand religion is the only card you play in your  
hands  
i'll pull a knife, i'll cut your neck  
i'll chop your head off, i'll break your legs  
i'll chop your legs off and put you in the freezer  
watch you freeze, freeze, freeze  
fucking die, fucking die  
fucking die, fucking die  
watch your room, through your head in the room  
where you are bleeding, from a circle  
i'll clean up your body parts with a fucking vacuum  
cleaner
