I'm gonna be so far away. to be apart makes me
unhappy. you won't see me for a long long time. I know
you might get pretty lonely.

You wait for me??

I'll be a good girl - always true. no raisin' hell like I
usually do. I'll stay at home and just think of you. no
boogie nights, no boogaloo.

You wait for me??.

Don't you worry, can't you see. you can always count on
me. just because I'm far away. doesn't mean that I will
stray.

If you call and maybe I don't answer. you know I might
be sleeping. don't think I'm out getting crazy. you know
I wouldn't do that, don't you baby??

You wait for me??.
