"I FEEL SICK"

Visit "[I FEEL SICK](#)" on MotoLyrics.com

Where are you deep inside?
I thought you loved my own flavour
I hear your voice and loose my mind
It makes me sick and I feel
Where's my verve,sweet loved girl?
I even tried to hold you back
Watch me now without you!
My whole life means nothing
I feel sick,I'm so alone,I need you
I feel sick,I'm so alone,I need you
My frozen mind keeps me alive
You shattered my dreams...read my sign!
I lived in a hole...I'd like to fly
Wish I could reach the sky
