J. stacy

It's the right time for starting something... are you  
playing around with me... oh, the night is winding down

Could you be thinking something... that you don't want  
to say out loud... oh, there's no more waiting now... it's  
time to get down!

Hey, hey, hey little sugar... hey, hey, i, I got your sugar  
too...

I could be the woman that you dream of at night...i'm  
ever so lonely, you're ever so nice to me... I fell like I've  
known you for a thousand years... come on baby - come  
on baby...

It's the right time, to make arrangements... are you  
coming along with me... there can be no more waiting  
now... it's time to get down!

Hey, hey, hey little sugar... hey, hey, i, I got your sugar  
too...hey, hey, hey little sugar... hey, hey, hey little  
sugar... hey, hey, hey it's time to get down... I'll be a  
bitch for you...

Hey, hey, hey little sugar!
