J. stacy / s. storey

Cabin on a cruise with a window chair - nowhere to go,  
so you might as well go there - organizing letters,  
pictures of your long lost friends - staring out the  
window, looking for the medicine m  
Man-o-man what you need is the medicine man...  
ooooo - gotta find him, if you can...

You got a thing for pain, but you never felt like this  
before - still got money, feel down and dirty poor -  
traveling lighter, just taking what you need - sleeping  
all hours, sleep-walking in be

...

Man-o-man what you need is the medicine man...  
ooooo - gotta find him, if you can...

Oooo, medicine man -- you cure my condition - oooo,  
do what you can -- you talk and I'll listen... to the  
medicine man...

Oooo, you were all the rave, baby in your day, you were  
really something...  
You really gave it to them - you just walked right  
through them... oh yeaah....

All the women talked about you, the men loved to see  
you - then...

Oooo, you were the one to watch, the debutante that  
made it happen...

Ooooooooooooo, you can live again...

You need the medicine man... need the medicine  
man... man-o-man... you gotta get the medicine man.
