(Da da da da da da da....)

(Da da da da da da da....)

(Da da da da da da da....)

Only time will tell

(Da da da da da da da....)

(Da da da da da da da....)

(Da da da da da da da....)

Only time will tell

Looking back at what we use to have

Now I know

There's something going wrong

What I see

That pains in you and me

Now I hope we can fight it this time

It will be time that keeps us together

And when time ends

It's love left forever

Baby it's time that keeps us together

With this time

Love won't be forever

(Da da da da da da da....)

(Da da da da da da da....)

(Da da da da da da da....)

Only time will tell

(Da da da da da da da....)

(Da da da da da da da.... Only time will tell)

(Da da da da da da da....)

Only time will tell

I took the chance

I can't deny, so many times

I looked back to realize

Could not see

The possibility

Of you alone, It seemed so wrong baby...

Decisions have to be made

Do no good

Yes I'm scared of what will become of this love
What will become of this love

It will be time that keeps us together
And when time ends
It's love left forever
Baby it's time that keeps us together
With this time
Love won't be forever

(Da da da da da da da....)
(Da da da da da da da....)
(Da da da da da da da.... Need you here with me
baby...)
Only time will tell
(Da da da da da da da....)
(Da da da da da da da....)
(Da da da da da da da....)
Only time will tell

Hmmm....
Only time will tell

It will be time that keeps us together
And when time ends
It's love left forever
Baby it's time that keeps us together
With this time
Love won't be forever

Seems so right girl
I can't go wrong
I don't want you to be alone

(Need you here with me baby)Only time will tell

Seems so right girl
I can't go wrong
I don't want you to be alone

Only time will tell....
Ohh Yeah....
