

Placid "Drowned"

Visit "[Drowned](#)" on MotoLyrics.com

We used to be just friends and
I wanted something more,
But I waited far too long
And by then you'd closed the door
I turned away from you
Went in another direction,
And now my love for you
Has turned into infection

Chorus

I never should have turned you down
And now the price that I've paid
Is a lifetime of being drowned
In a pool of my own mistakes

I can't live a day without thinking
Bout how we could've been
Bout how we'd look together
Bout how we would've been seen
Maybe as great lovers
Maybe as good friends
But there can be no beginning,
To that which will never end

Chorus

I should've been more careful
Bout how I'd treated you
But I still can't see
Why you and me
Can't just start anew
And the fact of the matter is
That you should know how I feel
Cause I've gotta decide
Whether I should hide
Or if I should just be real

And I never should have turned you down
And now the price that I've paid
Is a lifetime of being drowned

In a pool of my own mistakes, mista-y-akes

Musical Interlude

My world dont turn without you,
My life is not complete,
And nothing in this world can hide
WHAT YOU DO TO ME

Chorus

And I never should have turned you down
And now the price that Ive paid
Is a lifetime of being drowned,
In a pool of my own,
In a pool of my own,
In a pool of my own...
MISTAKES!!
