Chorus

Fighting the fear inside
Living life by your side
Lost inside the world alone
Left to feel what pain has done

Feeling what has happened now
What was left inside me now
All which gathered inside
What was left but me to hide

Pre-Chorus

Don't be fooled, by your past
Life can be, a pain that lasts

Chorus

What lies inside is haunting
All the wrong which can be blinding
Cannot tell which is right or wrong
Wondering where your life has gone

Pre-Chorus

Chorus

The imaging inside your mind
Lost, not a place to find
Sorrow is your only grief
Never again, to hurt ME!

Chorus
