Forget the words that they speak
Doctors are full of shit
I am not the crazy one
And I'm not in need of help

Pre-Chorus

I don't need anything for my depression
I never took anything before
You can take all of your pills
And shove them up your ass

Chorus

I know for a fact that I am alright
I could scratch the ground
And kiss my ass
But I know that I'm alright

I could use your little pills
And hork them up my nose
Snot them back at you
And tell you to fuck off and die

Pre-Chorus

Chorus

Can you tell I have a potty mouth
But don't give the least of shit?
Angry flows faster than blood
When people say I have issues
I KNOW I have issues!
You don't have to tell me twice
But mind your own business
And get that cock out your ass!

Chorus
