In a world of piss and shit
I've learned no other way
But to give and to get
What this world gives your way
People break their friendships
For people just to date
But never do they realize
Until it is too late

Chorus

We all should be dead
In the hands of another life
It never could have made much sense
Because we're all fucked up!

Too bad we all have to go about
Without a ring above our heads
Without the protection of another
But a protection that's long dead
Shoot someone or kick some ass
Just a point from which should pass
Learn as well as anyone ere
Life is something else to Fear

Chorus

I wish I'd hope to cure something
To make everything okay
But to prove something I knew I'd lose
It's just a waste of time
Most people wish with all their might
Life could be all and good
And fun's sure on that list
But sometimes it don't work out that way!

Chorus Out
