Say say say say,
Do do do do,
Way way way way,
Ooh ooh ooh. [x2]

Everybody's been against us from the start,
Thinkin' man you've lost your mind,
Sayin' that girl's not your type...but they're all
blind.

But I bet they never felt half the way I do,
Never had a man half as good as you,
My baby.

[Chorus:]

So they can say what they wanna say,
Do what they want to do,
It don't matter anyway, there's nothing they can
prove,
To change how I feel about you,
So they can see what they wanna see,
And say what they want to me,
But I know that I believe in my point of view,
That I'm all mad for you.

Everybody tries to tell me you're no good,
And that boy you don't deserve a girl like me but I
disagree,
And it's not their concern.
No they never had a love like you and I,
Call it jealousy playin' with their minds,
My baby.

[Chorus]

Everybody, will have to get used to us being together,

Cos' that's how we're gonna stay.
Our love will last forever (and ever),
Forever always.

Say say say say,

Do do do do,
Way way way way,

So they can say what they wanna say,
Do what they want to do,
It don't matter anyway, there's nothing they can
prove.
So they can say what they wanna say,
And say what they want to me,
But I know that I believe in my point of view. [x2]

So they can say what they wanna say,
Do what they wanna do. [x2]
It don't matter anyway.

So they can say what they wanna say,
Say what they wanna be.
Follow what I believe. [x2]

So they can say what they wanna say,
Do what they wanna do. [x2]
It don't matter anyway.

So they can say what they wanna say,
Say what they wanna be,
Follow what I believe. [x2]

So they can say what they wanna say....
