We're moving like glaciers now  
When we move at all  
There are two things I could do for you right now

If I could change at all (2x)

Well I'm leaving for the weekend  
But the weekend didn't want me  
So it looks like I'm still hanging on with you  
And you said that I was crazy  
And suggested getting help  
When I said let's move up to Canada

I know that it's cold but  
If you're unhappy and I'm so faithless  
We could be there by early afternoon

Don't let the situation turn  
From black to worse  
Once this ice was strong enough  
But everything must melt  
And you ask how I could be this way  
Needlessly insecure

And you could change your mind completely  
You could change completely (2x)
