Well, come on, let me in
It's hard enough to make a friend
If you're ready to leave the show
Well, I could walk you home
Come on, let me know

I am a landscape typist.
When a landscape typist is nothing to even be
I'll strike the ribbon with just the perfect keys
Come on, make it easy
Come on, make it easy

Look at it this way if you can
It's not so bad, just change your definition
Well, come on, let me in
Come on, let me in
Come on, let me in
Come on, let me in
Come on, let me in
