well my car don't work
and you think that it's funny
and the bills keep coming in
but i ain't got no money

everything is starting
to fall into place
i got a little outfit
made of leather and lace
everything's gonna be a-okay tonight

well my hindsight's blurry and i ain't got a clue
i took a walk in the park and i stepped in some dog poo

everything is starting
to fall into place
i got a little outfit
made of leather and lace
everything's gonna be a-okay tonight

well i cut myself and now i'm bleeding
i got spots on my face and my hairline's receding

everything is starting
to fall into place
i got a little outfit
made of leather and lace
everything's gonna be a-okay tonight
