### "Reach"

Visit "[Reach](#)" on MotoLyrics.com

when you reach for stars  
you're gonna come down empty handed  
when you reach for the stars  
you're gonna come down empty handed

you drew it on the board  
and then you erased it  
you told me i turn it on  
and then you let me waste it  
i knew your honey was good  
but now i can't taste it

when you reach for the stars  
you're gonna come down empty handed  
when you reach for the stars  
you're gonna come down empty handed

you drew it on the board  
and then you erased it  
you told me i turn it on  
then you let me waste it  
i knew your honey was good  
but now i can't taste it

when you reach for the stars  
you're gonna come down empty handed  
when you reach for the stars  
you're gonna come down empty handed
