It's so hard to leave you  
I don't really wanna go  
I don't wanna say Good-Bye to you  
It's the last thing I wanna do  
But I won't be sad now  
Cause 'til you're in my arms again you'll be inside of  
my heart  
And wherever I go, We'll never really be apart

#### CHORUS:

We'll be wishing on the same star  
Looking at the same moon  
When you're thinking of me, baby  
I'll be thinking of you  
And no matter where I go  
I will be there with you  
Wishing on the same star  
Looking at the same moon

It's not really over, baby, it will never be  
Long as you keep me in your heart  
I'll be there anywhere you are  
And when you feel sad remember all the love we  
shared  
And when you're feeling alone  
Well, just look up in the sky, oh and baby so will I

#### CHORUS

No matter where you turn around  
It's the same sun that keeps shining down  
Wherever we'll be, I know that we'll be  
Wishing on the same star

#### CHORUS

Wishing on the same star
