"Break It Off"

Take a piece and break it off

Leave the crust; the filling's gone

You take it and run

Now I'm here in the instance of regret

Without you there to save me

Am I the one who's supposed to save you now?

Well I don't remember how

Take a piece and break it off

Leave the crust, but kill yourself

You take it and run

Now I'm here in the instance of regret

Without you there to save me

Am I the one who's supposed to save you now?

Well I don't remember how
