I don't know why I keep fuckin' with you  
When you spend my money  
Should I keep running home?  
Fuckin' with you

At times it's funny  
But I keep runnin' home, fuckin' with you  
They tell me run, leave, but I won't  
I keep on, I keep fuckin' with you

I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you  
I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you

You don't celebrate me  
Oh, but I keep fuckin' with you  
You go out but never with me  
Still I keep on fuckin' with you

You're always competin'  
And I keep right on fuckin' with you  
And I've started resenting  
But I keep right on fuckin' with you

I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you  
I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you

Now when I get up, I'm not comin' back  
Then you'll realize I was the best you ever had  
So in love with being in love  
And it's the only thing I'm thinking of

When I get this monkey off of me  
I bet one day I'm gon' leave

So don't tell me you love me  
'Cause I keep right on fuckin' with you

Just to please me 'cause I fucked with you  
The fact remains is that I keep right on fuckin' with you  
And you ain't changed, but I keep right on  
I keep fuckin' with you

I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you  
I can't hardly wait to be through with you  
Hardly wait, still I'm fuckin' with you

Fuckin' with you  
Ooh baby, I keep fuckin' with you  
Fuckin' with you  
You, you, you, you, you, you  
I keep fuckin' with you

Sayin' so much to clean up, but I'll feel so much better  
without you  
Fuckin' with you  
Say I can't wait to get up,  
but sometimes this is what love makes us do  
Fuckin' with you

Can't wait, can't wait, I can't wait  
I still love you  
Can't wait, can't wait, I can't wait  
One day you will realized  
Can't wait, can't wait, I can't wait  
I still love you  
Can't wait, can't wait, I can't wait  
Can't wait, can't wait, I can't wait  
I still love you
