I was fast asleep dreaming I was rain  
I fell from the clouds to touch your frame  
But you just hid your face beneath your hands now  
Delirium is soothing me  
Just close your eyes  
go to sleep  
I was holding on hanging by a thread  
Clinging to 3 words you said  
But words are meaningless  
in your absence  
this violation's a victory  
just close your eyes  
go to sleep  
Delirium is soothing me  
I'll keep your words close to me  
this violation's a victory  
just close your eyes  
go to sleep
