"Looking For Happiness"

Visit "[Looking For Happiness](#)" on MotoLyrics.com

If you understand you can discover
That you understand the meaning of a lover
If you understand that now it's over
You will understand what happend to a lover
If you understand I want you tonight
You will understand if you want me tonight

If you understand
That we understand
So we'll understand
If you understand

I am looking for happiness
I am looking for fun
I am looking for happiness
I am looking for me

If you understand you can discover
That you understand the meaning of a lover
If you understand that now it's over
You will understand what happend to a lover
If you understand I want you tonight
You will understand if you want me tonight

If you understand
That we understand
So we'll understand
If you understand

I am looking for happiness
I am looking for fun
I am looking for happiness
I am looking for me
