[Master P]

Say brah

In this game called life

It's charces (choices), decisions, and consequences

I decided to change my life, for the better [ya heard me?]

So anybody that's out there seeking conviction

because of profanity in my music

then you don't understand me or my people

See my music is about keepin it real

It's about the constant struggles that I been through in the ghetto

So cain't (can't) no man or woman convey the sounds that I make..

It don't get no realer than this

[241] - singing while P speaks

Y'all don't know what we goin through (mo' money mo' problems)

Y'all don't know what they put us through (mo' money mo' problems)

Y'all don't know what we goin through (mo' money mo' problems)

Y'all don't know what they put us through

[Master P]

Too many problems I can't sleep, you either strong or you weak

See I was born to be a G, that's why I learned to flip a key

From the cradle to the grave, you either a master or a slave

Now who wanna get paid? But I'ma a hustler til I'm dead

Fuckin wrong road but it's the right route..

Now picture me with the lights out!

Who can I turn to when time's hard?

Trust in no nigga, put my faith in God

Cause penitentiaries, stayed packed (stay packed)

Once you on the bus you might not come back

To my homies doin time, keep your head up (head up)

And to my soldiers on the street, don't get fed up (fed up)
Sometime we do bad, but we all in it
You gotta learn to dream, cause there's No Limit, ya heard me?

[241] - singing

Y'all don't know what we goin through (mo' money mo' problems)
Y'all don't know what they put us through (mo' money mo' problems)
Y'all don't know what we goin through (mo' money mo' problems)
Y'all don't know what they put us through (mo' money mo' problems)

[Ghetto Commission]

Don't treat me like a disease, cause my skin darker than yers (yours)
And my environment is hostile, nuttin like your suburbs
I'm from the ghetto, home of poverty - drugs and guns
Where hustlers night life for funds but, makin crumbs in the slums in the street, in the cold in the heat
Rest in peace and then deceased but we still strugglin while you sleep
And the game never change it's still the same since you passed
We get beat and harassed, whenever them blue lights flash

To the little homies in the hood, claimin wards and wearin rags
Tryin to feel a part of a family he never had
And it's sad, I feel his pain, I feel his wants
To avoid bein locked up, there's do's and don'ts

Use your head little soldier, keep the coke out your system
that ? out your veins, that won't do away with the pain
Only prayers will get you through, ain't no use to bein foolish
Ain't got one life to live, so be careful how you use it

[241] - singing

Y'all don't know what we goin through (mo' money mo' problems)
Y'all don't know what they put us through (mo' money mo' problems)
Y'all don't know what we goin through (mo' money mo' problems)
Y'all don't know what they put us through (mo' money

mo' problems)

[Master P]

Haha.. the mo' money you make, the mo' problems you
gon' have

The mo' people gon' want, the mo' they gon' wanna
take it from you

(The mo' they gon' want to STEAL from you)

So keep your eyes open (they might even kill you to get
it)

(Can't believe in nobody but God soldiers)

There ain't No Limit, ya heard me?

(Believe.. none of what you hear and half of what you
see, huh)

(Picture me ballin.. think they wanna see a ghetto child
Comin out the Callio' project, makin Forbes magazine,
Fortune?

Huh, think they wanna see, a ghetto kid like me, make
it in the NBA?

Huh, picture me ballin.. uh-huh, picture all of us ballin

Picture the haters fallin though, uh-heh

It ain't No Limit ya heard me?)
