You were there, when my mama said
That he ain't coming home.
When I got the call, I know,
You were with me on the phone.
I don't know where, I would find myself
If You had not found me first.
Through the loss and the win,
I've never been alone.

I've walked miles of desert,
Tossed in a burnin' sea,
But I've never been as stranded
Cause You've got love for me.
I have no earthly treasures,
But I have all I need.
I've never been empty handed,
You've got love for me.

Sometimes I pray what seems like empty words in my
heart
I know, every one of them is heard.
But still I forget, I go back to where I've been
Lost and alone on my own again.
I don't need to feel this way anymore.
Don't need to feel this way anymore.

Cause I've walked miles of desert,
Tossed in a burnin' sea,
But I've never been as stranded
Cause You've got love for me.
I have no earthly treasures,
But I have all I need.
I've never been empty handed,
You've got love for me, yeah

How precious are Your thoughts of me.
How precious are Your thoughts.
So precious are Your thoughts of me.
How precious every one of Your thoughts.

I've walked miles of desert,

Tossed in a burnin' sea,
But I've never been as stranded (no no no)
You've got love for me.
I have no earthly treasures,
But I have all I need.
I've never been empty handed,
You've got love for me, yeah

I've walked miles of desert,
Tossed in a burnin' sea,
And I've never been alone (no no no)
You've got love for me.
I've got nothing in this world,
But I have all I need.
Never been empty handed,
You've got love
You, You got Your love
You've got, You've got love for me
