### "Fist In The Air"

Visit "[Fist In The Air](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Nothing but lust and liquor on my tongue  
Say forget it and live your life forever young  
We're gonna party as if tomorrow never comes  
So let's celebrate everything you ever done  
Now put your hands in the air  
Stand there like you don't even care  
Swear, you too cool for the flare,  
If you need another drink let me hear you hell yeah  
I don't even know where you go, where you're from,  
who you are  
This may be our last night  
Only thang that's on my mind, shit let me ... hitting right

Nothing but lust and liquor on my tongue  
Say forget it and live your life forever young  
We're gonna party as if tomorrow never comes  
So let's celebrate everything you ever done  
Put your fist in the air, letting it pump  
Put your fist in the air, letting it pump  
Cause we partying like tomorrow never comes  
So keep spilling bottles and get forever drunk  
Ain't got a worry in the world, yeah I'm chilling with my  
thrills  
Call me every name in the book yeah, I don't even care  
Hands up I'm in my zone...alone  
Taking picture in the morning, see me in your favorite  
blouse

Spend all my money, in just one night  
You see I'm loaded, look in my eyes  
Don't know what tomorrow brings, but that's alright  
This gonn be the party, this gonn be the party of our  
life

Nothing but lust and liquor on my tongue  
Say forget it and live your life forever young  
We're gonna party as if tomorrow never comes  
So let's celebrate everything you ever done  
Put your fist in the air, letting it pump  
Put your fist in the air, letting it pump  
Cause we partying like tomorrow never comes

So keep spilling bottles and get forever drunk

I don't know if I'll ever make it to tomorrow  
But I know what I'm making it tonight  
Make it the time of my life  
I ain't gonna let nobody stop me  
Now that I'm feeling alright, yeah  
... nachos,... girls taking over you, swear you was on  
venus  
Cops around the corner but we don't plan on leaving  
Living every night like it was a weekend  
Pop that bottle, pop that bottle,  
Everybody in here make like a model  
Gonna be babies, sitting, sipping  
Go ahead engines put that shit out  
Pump, pump your fist, pump, pump your fist like this  
Pump, pump your fist, pump, pump your fist like this  
Jersey shore, pump your fist, pump, pump

Nothing but lust and liquor on my tongue  
Say forget it and live your life forever young  
We're gonna party as if tomorrow never comes  
So let's celebrate everything you ever done  
Put your fist in the air, letting it pump  
Put your fist in the air, letting it pump  
Cause we partying like tomorrow never comes  
So keep spilling bottles and get forever drunk.
