Now the summer has come  
and it's time to catch the sun  
let's go down to the beach  
for some supersurfin' fun  
Semi-saltstained hooters  
as far as I can see  
See-row after see-row  
just waiting there for me  
It's hot as hell  
and it ain't a bad place to be

It's just supersurfin' fun  
plenty of good times for everyone  
supersurfin' fun

The sand is warm and grand  
and the ocean's bright and blue  
we're boppin' to the hard-ons  
what am I supposed to do ?  
Our friends are out surfin'  
on waves that make 'em soar  
while I'm in Annie's drawers  
as we're stuck here on the shore  
and I sincerely hope  
they'll never surf-bored

'cause I'm having supersurfin' fun  
I wish this summer wouldn't end

But it's no use to pretend  
soon the autumn's close at hand  
but as long as we can  
we'll have our supersurfin' fun
