British Imperialism Get Out of Ireland  
Down with your murdering plunder & rule

The British working class & the Irish people  
Have a common enemy:  
The British monopoly capitalist class  
Irish people fight across the sea  
We are fighting in unity  
We are fighting in unityChorus

We uphold what Engels said:  
A nation which oppresses another nation  
Cannot itself be free  
Support the Irish peoples struggle  
For national independence & unity  
For national independence & unityChorus

To support the Irish people  
There is only one way  
Support the Marxist Leninist  
Support the Irish peoples struggle  
For national independence & unity  
For national independence & unityChorus

British Imperialism Get Out of Ireland  
Down with your murdering plunder & rule
