Ireland's been exploited for hundreds of years  
Still her people heroically fight on  
And will never cease their fight till their country is free  
And the last British soldier has finally crossed the  
seaChorus

Vict'ry will be Ireland's Vict'ry will be hers  
Hail Ireland's glorious martyrs  
Fought to make their country free  
Hail Irelands glorious martyrs  
Soon will come their victoryChorus

Karl Marx recognised many years ago  
That all contradictions are solved through class  
struggle  
In Ireland the problem's not race or religion  
But stems from the oppression of British colonial  
ruleChorus

Vict'ry will be Ireland's Vict'ry will be hers  
Hail Ireland's glorious martyrs  
Fought to make their country free  
Hail Irelands glorious martyrs  
Soon will come their victory

History has shown us time and time again  
That imperialism is weak while the people are strong  
So don't let the enemy split you with their lies  
Recognise the real enemy and strip him of his  
disguiseChorus

Vict'ry will be Ireland's Vict'ry will be hers  
Hail Ireland's glorious martyrs  
Fought to make their country free  
Hail Irelands glorious martyrs  
Soon will come their victory
