Revolution is the main trend in the world today

The danger of a new World War still exists &
The people of all countries must get prepared, but
Revolution is the main trend in the world today

Ever since World War two
Ever since World War two
US imperialism and its followers
Have been continually continually
Launching wars of aggressionChorus

Revolution is the main trend in the world today
And the people of various countries
Have been continually waging
Revolutionary wars to defeat the aggressors

The danger of a new World War still exists &
The people of all countries must get prepared, but
Revolution is the main trend in the world today

A new upsurge in the struggle against
US imperialism is now emerging
Throughout the worldChorus

Revolution is the main trend in the world today
