I was wondering  
how long you would wait for me  
I didn't think I'd be relieved  
but I'm breathing

(Chorus)  
Walk away from me my love  
Walk away from me my love

You've got me thinking  
that it has to be  
only either you or me  
and you're slipping

Walk away from me my love  
Walk away from me my love

You could be here with me somehow  
You could be here with me right now

If your dreams don't break  
I'll be gone when you awake  
and anything you want you can take  
to save weeping

Walk away from me my love  
Walk away from me my love  
(You could be here with me somehow)  
Walk away from me my love  
(You could be here with me right now)  
Walk away from me my love
