### **"If That's Not Love"**

Visit "[If That's Not Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

If thats not love then what is  
If thats not friendship then what is  
If thats not music then what is

We've got the music in our blood  
Magic season then were done  
Magical feeling has begun  
Magical feeling has begun

And before you know it we are there  
On top of the world it seems  
I dont know who or why or where  
But i can still hear the music

If thats not love then what is  
If thats not friendship then what is  
If thats not music then what is

We've got the music in our blood  
Magic season then were done  
Magical feeling has begun  
Magical feeling has begun

And before you know it we are there  
On top of the world it seems  
I dont know who or why or where  
But i can still hear the music

If thats not love then what is  
If thats not friendship then what is  
If thats not music then what is

If thats not music then what is  
If thats not music then what is  
If thats not music then what is  
If thats not music then what is  
If thats not music then what is  
If thats not music then what is
