Just a friendly face
In a crowd of strangers
With hands held close
We will fear no danger
Seeing stars for the next eight years
Wishes made
Let go of your fears

Yes we can x4

JFK for the brand new wait
In our life time
We enter a hope for stay
Be kind to your neighbor
If no one is watching
And we sang for goodness
When no one is stopping

Yes we can x5
Overcome
Yes we can
Be as one
Yes we can
Live together
Yes we can

Tell me that I'm preching
I'm just speaking my mind
Tell me that I'm reaching
You've got to reach to find
Love the world
And you begin,
To see whats it's about
Can we change the way we live
And let the truth sing out

Yes We Can
