Every time I look outside
Makes me feel so young and alive
Why I chase such a useless burn
Now just a whiff makes my stomach turn
And it poisons my body and it turns my mind
Talk real slow but it feels real fine
If you gotta puke man, go outside
'Cause killing myself makes me feel alive

I can't stand by just to live and to die
And I can't decide if it's time for my
I can't stand by just to live and to die
And I can't decide if it's time for my

Every time I look outside
Makes me feel so young and alive
Feels so tingly when it's my turn
And it poisons my body and it turns my mind
Talk real slow but it feels real fine
If you gotta puke man, go outside
'Cause killing myself makes me feel alive

I can't stand by just to live and to die
And I can't decide if it's time for my
I can't stand by just to live and to die
And I can't decide if it's time for my

Everything that I know is changed
Everything that I know is changed now
Everything that I know is changed
Everything that I know is changed now

Everyone that I know is changed
Everyone that I know is changed now
Everyone that I know is changed
Everyone that I know is changed now
