You walk right by like you don't know that I exist
We've never even talked, you crossed me off your list
Cause you judge me right away, you never even hear
the words I say
I'm tired of trying to make you notice me

I don't want to think about you
But everyday it's all that I do
You don't even know who I am
Who I am

I saw you yesterday, but you were with your friends
I thought that I'd say hi but I walked away instead
Cause it seems like you and me can only happen
somewhere in my dreams
I guess it's hopeless to make you notice me

I don't want to think about you
But everyday it's all that I do
You don't even know who I am
Who I am
I don't want to waste time with you
There's nothing that can make this come true
You don't even know who I am

And you can't stop me now
This time I'll let you go
You didn't figure out
There's something you should know

The plans I made with you seem like they're made in
vain
I think I'd have a shot maybe if you knew my name
Do you stay up late at night, wondering how to be part
of my life
Did you plan this, to make me notice, make me notice
you?

I don't want to think about you
But everyday it's all that I do
You don't even know who I am

Who I am
I don't want to waste time with you
There's nothing that can make this come true
You don't even know who I am
But you don't even know who I am
But you don't even know who I am
But you don't even know who I am
But you don't even know who I am
