I think you're fucking ugly, I think you fucking smell,  
You moved into my neighbourhood and then it went to  
Hell,  
Die Homie, die.

You think you're fucking tough, you think you're fucking  
big,  
But you're just another lousy fucking jig,  
Die Homie, die

Always on the corner, selling fucking crack,  
Cry racism when you're busted because you're fucking  
black,  
Die Homie, die

You say you hate whitey, but you want his woman,  
Well i've got news for you nigger- the race war is  
coming  
Die Homie, die
