1) For life together from the start
I put myself into you're heart, You and me
I thank you for the happienes,
the love and joy you gave to me, trugh the time.

Refrain: For you it's ok, there's nothing to say
my mind is unclear, but you have no fear
You're gone from me, yes you're gone from me

2) The things you said were never true
my world is empty without you, without you
you came into my heart so fast,
to stay with me until the last,'til the last

Refrain....
