.. last night  
And i take the blame for that  
See everything i chose to hide  
And I'm so ashamed of it  
I close my eyes try to escape miles away  
Wanna know what you think  
I never met girl like you before  
I'm sure

Chorus:  
That Tiffany hates me  
And i can't escape it oh no  
Tiffany hates me  
And i can't escape it  
Tiffany hates me  
And i can't escape it oh no  
Tiffany hates me  
And i can't escape it

See niggas lie and oh am i  
To even try to change her mind  
And she won't cry  
cause she way too strong  
She a brush it on if they try to treat her won't  
All i need is this girl i truly miss her  
Which was not ..with her again and kissing her  
I never met a girl like you ooh i'm sure

[Chorus:]
