Placed in the wilderness
Naked and cold
The night draws the warmth from my flesh

Howls in the distance
The wolves they catch my scent
They yearn for my blood warm and fresh

But I cannot run, I cannot hide
I'm moments old, yet terrified
Snarling breath is on my face
Would just be in this place

Morning breaks the evening darkness
Daylight sings so loud
Father holds me in his arms
And laughs for he is proud

"All is well", my mother cries
A kiss for me her child
But at night my heart turns black
And calls me to the wild

In the night when the full moon glows
In the night when the wolf-bane grows
Cry wolf

Alone in your room by the light of the moon
Your glory is shining so bright
You pray for the day, oh show me the way
The devil takes over tonight

It's too late
Night is here
The time that you dread
The time when you lose all control

Your body's in pain
You cry in vein
Satan takes over your soul
Cry wolf

Even a man who's pure of heart
He says his prayers by night
Bane from a wolf when the wolf bane grows
And the moon's full and bright

The world is calling you
You cannot rather resist their call

I cannot run, I cannot hide
I'm still terrified
Snarling breath is on my face
I'm damned in this place

I cannot resist their call
It strengthens as I age
To the pack to join the feast
And fear immortal rage

Never can I live the life
Of every normal child
Forever I must answer
To the call of the wild

Cry wolf
The call of the wild
The call of the wild
