Million watts of music hell
Screaming legions black metal
Give it up with all you've got
Here we come ready or not

Deafening volume in power and black
Light up the skies in an aural attack

The darkest realm

Billion light years in the rigs
Interstellar searing licks
Song of the demon at the helm
Welcome to the darkest realm

Deafening volume in power and black
Light up the skies in an aural attack

Metal and mayhem - Hardcore elite
Crank up the volume - We will never be beat

Thousands of souls in darkest realm
Glorious choruses straight from hell
Feeding off power in musical trance
Life on the edge - Taking a chance
